CS209: Artificial Intelligence

Term Project Requirements and Evaluation Pattern

Deadline for submission: Tuesday, 15ᵗʰ April 2025, 10:00 PM

Evaluation: Friday, 18ᵗʰ April 2025

Submission Format:

- Each team must include the following documents in their submission:
    - **Python Code**
    - **Final Report**
    - **Presentation (PPT)**

  All files must follow the naming convention: **Team<Number>_<Filename>** (e.g., *Team01_Report.pdf*, *Team01_Code.py*, *Team01_Presentation*).

- **Zipping and Submission**

  - All required documents must be placed in a single folder.

  - The folder should be named as **Team<Number>** (e.g., *Team01*)

  - The folder should be zipped and named as **Team<Number>.zip** (e.g., *Team01.zip*).

  The zipped file must be submitted within the given deadline.

Note: Submission will not be considered and awarded 0 marks if the instructions for submission and the naming conventions are not followed.

Evaluation Pattern:

1. **Weekly evaluation by a mentor:**
   - Each team will have 4 members. There will be one TA who will mentor the team. Team will be meeting their mentor every week and discuss the progress. Mentor will guide and access your progress & involvement of each team members.
   - This will carry 10% of total evaluation of the project
2. **Evaluation from the team members**
   - Each team member will evaluate every other member in the team
   - While evaluation, he/she should clearly mention the specific roles, contribution to the project and efforts of each member.
   - This will carry 10% of total evaluation of the project
3. **Report:**
   - Report carries 35% of the total evaluation of the project

4. **Presentation**
    - Each team will be presenting their work in front of course instructor, TAs and entire class on Friday, 18th April 2025.
    - This presentation will be around 15 minutes for every team
    - This will carry 35% of total evaluation of the project
5. **Peer review process: Evaluation from the classmates other than team members:**
    - During the presentation, every student will evaluate every members in the presenting team based on their project quality, effort and quality of presentation. The evaluation should include **proper justification**
    - This will carry 10% of total evaluation of the project
